## GUARANTEED MAXIMUM PRICE AMENDMENT TO THE PROGRESSIVE DESIGN-BUILD CONTRACT

## FOR THE MERIDIAN CREEK CULVERT REPLACEMENT, BOECKMAN ROAD IMPROVEMENTS, AND ADVANCED WORK FOR BOECKMAN DIP BRIDGE OF THE BOECKMAN ROAD CORRIDOR PROJECT

Agreement # 220780 Amendment No.2, GMP 2 Project Number: CIP #4212, 4206, 4205, 2102, 7067

| This Amendme   | ent to the | Progressi | ive Des       | sign-Build  | Contra  | ct ("Agree | men  | t") is | entered |

The Agreement is revised as follows:

- Project Scope. Design-Builder shall complete the House Demolition and Meridian Creek Culvert Replacement ("GMP Work"). The GMP Work is described in more detail in the attached Exhibit A – Scope of Work: Design-Builder is required to furnish all materials, labor, water, tools, power, equipment, transportation, and other work needed to construct the GMP Work.
- **2. Contract Documents.** This Amendment consists of the main text of this Amendment and the following exhibits:
  - a. Exhibit A Scope of Work
    - i A.1 Construction Services Scope of Work
    - ii A.2 Engineering Services During Construction Scope of Work
  - b. Exhibit B GMP Supporting Documents
    - i B.1 Schedule of Values
    - ii B.2 Engineer's Fee
    - iii B.3 Assumptions and Clarifications
    - iv B.4 Equipment Rates
    - v B.5 Labor Rates
    - vi B.6 Construction Schedule
    - vii B.7 Permitting Strategy Plan
    - viii B.8 Right of Way Acquisition Plan
  - c. Exhibit C Construction Proposal Documents
    - i C.1 Key Personnel
    - ii C.2 Construction Document Index
    - iii C.3 Procurement Plan
    - iv C.4 Procurement Method
    - v C.5 Subcontractor and Suppliers
    - vi C.6 Selected Subcontractors and Suppliers

**3. GMP.** The parties agree that the Guaranteed Maximum Price ("GMP") for the Project is \$2,740,777.23, consisting of the Estimated Cost of the Work, Contingencies, and Allowances, summarized as follows:

| Estimated Cost of Work                           | \$1,586,495.83 |
|--|----------------|
| Contingency                                      | \$121,604.64   |
| Contractor Fee (Design Builder's Percentage Fee) | \$222,053.06   |
| Engineering Services for Construction            | \$110,602.04   |
| Owner Directed Allowance                         | \$700,021.66   |

#### **GMP Total (Total of Above)**

\$2,740,777.23

- 4. Basis of GMP. The GMP is based on the GMP Supporting Documents included as Exhibit B, including the contingencies, allowances, assumptions, exclusions, unit prices, and schedule designated in those documents. The GMP Supporting Documents are based on the Preliminary Engineering and any Construction Documents approved by the City. The Design-Build Documents remain in full force and effect; this Basis of GMP supplements design document requirements but does not replace them.
  - 4.1 GMP Encompasses Further Design Development. Design-Builder represents that the Drawings and Specifications upon which the Guaranteed Maximum Price is based are approximately 90% complete and that the Drawings and Specifications will require further development from Design-Builder's design team. In deriving the Guaranteed Maximum Price stated herein, Design-Builder has already anticipated and provided for this further design development and has included in the Guaranteed Maximum Price all costs expected or which reasonably could be expected for further design development, engineering and consultant services and reports, the creation and finalization of construction documents and issued-for-construction drawings, all design-team contract administration services and site visits, and all construction labor, materials, equipment, general conditions, fee and all other costs necessary, incidental or inferable from the documents, physical access to the site, and information available to date in order to design and build the Project consistent with the Owner's Project Criteria, the scope description, the Drawings and Specifications. and all other design and Owner-supplied information to date. The Guaranteed Maximum Price does not include significant changes in Project scope, systems, kinds and quality of materials, finishes or equipment after the date hereof, all of which, if required, shall be incorporated by Change Order or Construction Change Directive. By executing the Contract and upon execution of each Amendment to the Contract, the Design-Builder is deemed to have included in the Guaranteed Maximum Price sufficient amounts to cover all of its obligations under or arising from the Contract, at law, and otherwise, and to have allowed the necessary resources to enable Design-Builder to

- achieve Substantial Completion by the Scheduled Substantial Completion Date.
- **5. Substantial Completion Date.** Notwithstanding any provision in the GMP Supporting Documents to the contrary, the required date for Substantial Completion of the GMP Work is 11/13/2023.
- **6. Compensation.** Article 7, Compensation, is amended by adding the following:
  - a. City shall pay Design-Builder for GMP Work according to the schedules and unit prices stated in Exhibit B.1, including the Design-Builder's Percentage Fee as set forth in this Amendment and Article 7 of the Agreement.
  - b. Design-Builder shall invoice the City monthly for work performed, based on an estimate of the amount of work completed and the value of the completed Work. Invoices shall be directed to the City of Wilsonville Project Manager. If an invoice is delivered on a non-business day, the invoice shall be considered received on the next day the City Finance Department is open for business. City shall make a progress payment equal to the value of the completed Work, less amounts previously paid, less retainage of 5 percent within 30 days of receipt of the invoice.
  - c. City shall inspect the Project within 15 days of receipt of written notice from Design-Builder that the Work is ready for final inspection and acceptance. The City shall either accept or reject the work in writing. A rejection must state the reasons for the rejection and list the Work that must be done before the Project can be accepted. If a rejection is issued, Design-Builder shall complete all Work needed to be done and request another inspection. The process shall be continued until the City determines that the Project is complete and accepted. Within 30 days after written acceptance by the City and receipt of the Warranty Bond required by Section 8.c of this GMP Amendment and Section 5.1.b of the General Conditions, all remaining amounts, including the retainage. shall be paid to Contractor, provided that Design-Builder shall submit evidence satisfactory to the City that all payrolls, material bills, and other indebtedness connected with the Work have been paid; except that in case of disputed indebtedness or liens, the Contractor may submit in lieu of evidence of payment, a Surety Bond satisfactory to City guaranteeing payment of all such disputed amounts when adjudicated in cases where such payment has not already been guaranteed by Surety Bond. If City fails to pay within 30 days of acceptance and receipt of the Bond, City shall pay interest at the rate as specified in ORS 279C.515 on any unpaid amounts.

#### 7. Prevailing Wage

a. Design-Builder shall comply with all provisions required by ORS 279C.800 through ORS 279C.870 relating to the payment of prevailing wage rates for work performed.

- Design-Builder shall pay to workers in each trade or occupation the current, applicable State prevailing rate of wage as established by the Oregon State Bureau of Labor and Industries ("BOLI") http://www.boli.state.or.us/BOLI.
  - Design-Builder and any Subcontractors shall post the prevailing wage rates and fringe benefits as required by ORS 279C.840.
- Design-Builder shall prepare weekly certified payroll reports and C. statements and submit them to the City by the fifth business day of each month (ORS 279C.845). Reports shall be submitted to the City Project Manager, on a form prescribed by the Commissioner of the Bureau of Labor, certifying: (a) the hourly rate of wage paid each worker whom the contractor or the Subcontractor has employed upon the public works; and (b) that no worker employed upon the public works has been paid less than the prevailing rate of wage or less than the minimum hourly rate of wage specified in the contract. If the Design-Builder has not filed the certified statements as required under this contract, the City of Wilsonville shall retain 25 percent of any amount earned by the Design-Builder until the Design-Builder has complied. The City of Wilsonville shall pay the Design-Builder the amount retained under this subsection within 14 days after the Design-Builder has filed the certified statements with the City.
- d. Contractor shall allow BOLI to enter the office or business establishment of Contractor at any reasonable time to determine whether the prevailing rate of wage is actually being paid and shall make payment records available to BOLI on request. Contractor shall require subcontractors to provide the same right of entry and inspection.
- e. City shall not make final payment unless the prevailing wage rate certifications are received.
- f. Design-Builder must comply with all laws and regulations relating to prevailing wages, whether or not set out in this contract. Further information regarding prevailing wages is available by contacting BOLI at (971) 6730839 or on-line at the BOLI web site: <a href="http://www.boli.state.or.us/BOLI/WHD/PWR/index.shtml">http://www.boli.state.or.us/BOLI/WHD/PWR/index.shtml</a>.
- g. Prevailing Wage publications applicable to this contract are the Prevailing Wage Rates for Public Works Contracts in Oregon effective **January 5, 2023**, the Prevailing Wage Rate Amendments effective **January 11, 2023**, and the **October 1, 2022** PWR Apprenticeship Rates.
- 8. Insurance and Bonds.

- a. Design-Builder shall provide a separate Performance Bond and a separate Payment Bond in the form provided by the City. Each bond shall be equal to 100 percent of the GMP, or if either bond is issued to replace the bond previously issued under the Contract, equal to the total amount of the Progressive Design-Build Contract including the GMP Amendment. The Performance Bond and the Payment Bond must be signed by the Surety's Attorney-in-Fact, and the Surety's seal must be affixed to each bond. Bonds shall not be canceled without the City of Wilsonville's consent, nor shall the City release them prior to Contract completion. Bonds must be originals. Faxed or photocopied Bond Forms shall not be accepted.
- Builder's Risk or Installation Floater. The Design-Builder shall b. obtain and maintain for the benefit of the parties an all risk builder's risk or installation floater policy insuring 100 percent of the Cost of the Work. Such insurance shall include testing, and shall allow utilization of part of the equipment prior to Substantial Completion of all the GMP Work. Coverage shall continue until Substantial Completion of the GMP Work. The City and all Subcontractors shall be additional named insureds, as their interests may appear. The City shall be given not less than 30 days' written notice prior to cancellation, nonrenewal, or material change in the policy. One copy of the policy and a certificate of insurance shall be delivered to the City before commencing GMP Work and shall be subject to approval by the City. The City may defer delivery of the copy of the policy, but such deferral shall not be a waiver of the City's right to a copy of the policy. In the event the Design-Builder fails to maintain insurance required under this subsection 5.14, the City, at its sole option, may arrange for such coverage, and any administrative costs and premium incurred shall be reimbursed by the Design-Builder.
- c. Design-Builder shall provide a Warranty Bond in the amount of the GMP to cover the warranty period after acceptance. The City's acceptance of the work shall not take effect until receipt of the warranty bond.
- 9. Liquidated Damages. Design-Builder recognizes that the City shall incur significant internal and external costs (damages) as a result of any delay by the Contractor completing all GMP Work within the specified Contract time. However, given the nature of the GMP Work, it is unduly burdensome and difficult to demonstrate the exact dollar value of damages related to delay. The City has made a good faith and reasonable estimate of damages it would suffer from loss of use due to delay in completion. Contractor agrees to pay to City, not as a penalty but as liquidated damages for loss of use, an amount calculated based on Section 00180.85 in the Oregon Standard Specifications

for Construction 2018, for each calendar day of delay in completion of the Work.

The City of Wilsonville is authorized to deduct the amount of the liquidated damages from any amounts due and the Contractor and its Surety shall be liable for any excess. See Section 00180.85 of the City of Wilsonville Special Conditions to the General Conditions.

If the Contract is terminated according to the General Conditions and if the Work has not been completed by other means on or before the expiration of Contract Time or adjusted Contract Time, liquidated damages shall be assessed against the Contractor for the duration of time reasonably required to complete the work.

The parties further agree that the liquidated damages required by this Contract are compensation to the City only for the harm the City sustains from late completion for loss of use. They are not compensation for additional effort required by the City because the Work has been extended over a longer period, or for other harm the City may sustain form the Design-Builder's other breaches of this Contract. The City may withhold liquidated damages from progress payments, or may withhold the full amount of accrued liquidated damages from final payment. Nothing in this Contract shall be interpreted to prevent the City from seeking other damages or recovery in addition to the liquidated damages specified in this section.

- 10. Other Damages. The City may recover from the Design-Builder, withhold from payments under this Contract, or both, actual costs incurred by the City due to the extra effort necessitated because the Work is extended over a longer period of time, such as the actual costs of additional engineering and inspections by the City or extended third party services. This right to actual damages shall apply to both late Substantial Completion and late Final Acceptance.
- 11. Termination for Convenience. In the event of a termination of this GMP Amendment for convenience, the Design-Builder will not be entitled to overhead or profit on the unperformed Work, and will not be entitled to payments in excess of (1) the Cost of the Work incurred by the Design-Builder to the date of termination, (2) the prorated portion of the Design-Builder's Percentage Fee based on the ratio of (a) the Cost of the Work incurred by the Design-Builder to the date of termination divided by (b) the Guaranteed Maximum Price less the Design-Builder's Percentage Fee, (3) fair compensation, either by purchase or rental at the election of the City, for any equipment owned by the Design-Builder which the City elects to retain and which is not otherwise included in the Cost of the Work under subitem (1), and (4) fair compensation for the Design-Builder's demobilization costs and other costs directly incurred relating to the termination which are not otherwise included in the Cost of the Work under subitem (1); provided, however, that

the total amount of such payment shall be subject to the Guaranteed Maximum Price.

In all other respects the Contract shall remain in full force and effect.

Approved and authorized for signature by City Council on July 17, 2023.

This Amendment may be executed in two originals, with one original to be delivered to each party.

THE PARTIES SIGNING BELOW WARRANT, REPRESENT AND AGREE THAT THEY HAVE THE AUTHORITY TO SIGN THIS AGREEMENT AND AGREE TO ALL TERMS:

### **Exhibit A.1**

#### Scope of Work – GMP 2 Construction Services

City of Wilsonville - Boeckman Road Corridor Project

House Demolition and Meridian Creek Culvert Replacement

#### **Description:**

The Project scope of work for this construction proposal is to provide Engineer of Record construction services (see KPFF Scope of Work further defined in Exhibit A.2) and the material, labor, and equipment needed to construct the Work. Work is generally defined in this construction proposal as traffic control, erosion control, grading, temporary paving, temporary striping, demolition, landscaping, utility relocation, culvert removal/installation, structural concrete, metal fabrication and masonry. GMP 2 also includes Owner directed allowances to procure H-pile, pipe pile, MSE wall engineering, and bridge girder engineering for the proposed GMP 3 construction.

#### Location:

House demolition (7550 Boeckman Road) and Meridian Creek & Boeckman Road Crossing (BRCP STA 64+00 – 66+00).

#### **Purpose of Project:**

Demolish the existing structure at 7550 Boeckman Road for future City of Wilsonville storm water management facilities. Remove and replace existing culverts to increase the conveyance of Meridian Creek beneath Boeckman Road.

### **Exhibit A.2**

#### **SCOPE OF SERVICES – GMP 2 Construction Engineering Support Services**

City of Wilsonville - Boeckman Road Corridor Project

House Demolition and Meridian Creek Culvert Replacement

#### A. PROJECT UNDERSTANDING

The following scope of work covers civil and traffic engineering, landscape architecture, arborist and environmental construction support services necessary for the installation of the proposed culverts at Meridian Creek and related infrastructure as documented in the GMP2 – GMP Submittal dated 5/19/2023.

#### **B. TASK BREAKDOWN**

#### TASK 22 CONSTRUCTION ENGINEERING SUPPORT SERVICES – GMP 2

#### 22.1 Project Management, Administration and Coordination

Project management and administration for the execution of the contract throughout the construction phase. This assumes we will take part in 6 one-hour conference calls or virtual meetings throughout the duration of the construction phase. Review and provide edits to meeting notes developed by others.

#### 22.2 Civil/Structural Engineering

KPFF will provide the following construction engineering support services under this contract amendment:

- Attend pre-construction conference. This assumes the preconstruction meeting will be up to 2-hours and held at the City's office or in the field.
- Provide up to 4 civil and structural-related site visits during construction. We assume that KPFF will be notified of the construction schedule and progress to establish site visit dates. The site visits will be made at intervals appropriate to the stages of construction. Consultant shall document observations made through the preparation of site visit reports.
- Provide interpretations and/or clarifications of the civil and structural portions of the work for up to eight civil and eight structural Requests for Information (RFI's), Design Clarifications, and/or Contractor questions. The design consultation will occur only as required and may be ongoing through the Project. Each response is assumed to be no more than two-hours of effort.
- Assist in determining if non-conforming civil work shall be rejected.
- Review specified shop drawings or product submittals for the civil and structural portions of the work.
- Provide "Record" plans for the civil and structural portion of the work based on 1 clean, redlined, full-size set of drawings provided by the Contractor.
- Assist with the project closeout. Review the final inspection documentation and project correction list provided by the City.

• Assist with utility coordination throughout construction to facilitate relocations needed to accommodate the proposed construction.

#### <u>22.3 Culvert and Channel Design – Construction Services</u>

Brown and Caldwell (BC) will provide engineering support services during construction which is assumed to be no greater than 12-weeks. The scope of services is limited to the following:

#### Meetings:

- BC will participate in bi-weekly virtual meetings (up to 6 meetings at one-hour each).
   Preparation of agenda and meeting minutes provided by others.
- Provide a listing in an Excel workbook of all the required submittals specified in the Contract Documents (as requested).
- Request for Information (RFI) Services (up to 4 included):
  - Prepare responses to up to four 4 RFIs.
- Review of Submittals:
  - Review detailed construction shop drawings, contractor/vendor's operations, and other submittals. Assume up to 6 submittals will be reviewed and responses will be prepared.
- Field Visits:
  - Attend up to 3 field visits by a BC Field Engineer. Five-hours inclusive of travel time is assumed.
  - As-Built Drawings (1 field visit included): BC will review contractor-provided as-built drawings. Record drawings will not be prepared.

#### 22.4 Traffic Engineering

Kittelson and Associates will provide the following construction engineering support services under this contract amendment:

#### 22.4.1 Shop Drawing and Material Submittal Review

Consultant shall review supplemental traffic control plans and/or shop drawings submitted by the Construction Contractor for general conformity to the contract documents. Submittals shall consist of the following:

- Temporary traffic control plans.
- Temporary sign shop drawings.

#### 22.4.3 On-site Engineering Observation

Consultant shall provide additional on-site engineering staff to supplement the City/County Inspector for the purpose of observing specific construction activities as requested. If requested, scheduling for on-site observation/inspection will be coordinated with the Project Manager. Up to 2 site visits by one Consultant staff are included as part of this task.

#### 22.4.4 Design Modifications

Consultant shall prepare and submit engineering design revisions or additional design, as required, or necessitated by unanticipated conditions encountered during construction. Consultant shall submit design revisions in the form of calculations, plans, specifications, and estimates as directed by the Project Manager. Consultant shall provide additional design services up to the level of effort included in the budget for this task, as directed.

#### 22.5 Landscape Architecture Services

GreenWorks will provide the following construction support services under this contract amendment:

#### 22.5.1 Project Management

Includes preparation of invoices and progress reports, and internal review and coordination.

#### 22.5.2 Material Submittal Review

Consultant shall review material submittals submitted by the Construction Contractor for general conformity to the contract documents. Submittals shall consist of the following:

- Tree Protection Fencing
- Soil test report
- Soil amendments
- Nursery plant list
- Temporary irrigation plan

#### 22.5.3 Consultation During Construction

Consultant shall provide consultation and technical services regarding design issues raised during the construction of the Project, including:

- Attendance at the preconstruction meeting.
- Provide written responses for up to 3 Requests for Information (RFI's), Design Clarifications, and/or Contractor questions. Each response is assumed to be no more than two-hours of effort.
- Coordination with Project Arborist, Civil, and stream channel designers

#### 22.5.4 On-site Construction Observation

Consultant shall visit the site to observe specific construction activities related to landscape architecture scope and provide brief field observation reports for each visit. Scheduling for on-site observation visits will be coordinated with the Project Manager, Project Arborist, and other Consultants if requested. Up to 2 site visits by one Consultant staff are included as part of this task. Each site visit is assumed to be no more than four-hours including travel time and field observation report. Long-term monitoring beyond the GMP 2 construction period is not included.

#### 22.5.5 Design Modifications

Consultant shall prepare and submit design revisions or additional design, as required, or necessitated by unanticipated conditions encountered during construction. Consultant shall submit design revisions in the form of plans and specifications as directed by the Project Manager. Consultant shall provide additional design services up to the level of effort included in the budget for this task. As-built drawings are not included.

#### 22.6 Arborist Services

Consultant shall provide on-call consulting arborist services to monitor and document tree protection measures, supervise excavation, direct root pruning or protection beneath the dripline of existing trees and provide the contractor with on-the-ground tree protection recommendations as needed.

#### 22.7 Environmental Consulting Services

Pacific Habitat Services shall provide the following environmental consulting services during construction:

- Site visits to review planting installation, up to 3 visits at 4 hours each.
- Responding to RFI submittals.
- Preparation and submittal of post-construction reports for the US Army Corps of Engineers and Oregon Department of State Lands.

#### 22.8 Geographical Engineering Services

Haley & Aldrich will provide the following geotechnical engineering support services under this contract amendment:

- Provide up to 3 site visits during construction. The site visits will be made to observe the preparation of the subgrade for the foundations of retaining walls and culvert bedding subgrade. Consultant shall document observations made through the preparation of site visit reports.
- Provide interpretations and/or clarifications of the geotechnical portions of the work for up to two RFI's, Design Clarifications, and/or Contractor questions. The design consultation will occur only as required and may be ongoing throughout the Project. Each response is assumed to be no more than two-hours of effort.

#### C. ASSUMPTIONS & CLARIFICATIONS

- All permit fees and agency charges will be paid by others (not KPFF). See Exhibit B.3 and B.7
- KPFF and/or subconsultants will not be providing construction surveying services. See Exhibit B.3
- KPFF and/or subconsultants will not be providing necessary testing and inspections during construction. See Exhibit B.3
- A post construction survey of as-built conditions is not included in this proposal.
- KPFF and/or subconsultants will not be responsible for special inspection services, such as compaction testing of backfill, concrete and reinforcement testing, etc. See Exhibit B.3

## **Exhibit B.3 – GMP 2 Assumptions & Clarifications**

#### GMP 2 – 90% House Demolition and Meridian Creek Culvert Replacement

## **Assumptions and Clarifications**

These Assumptions and Clarifications form the basis of the Tapani|Sundt, a Joint Venture, TSJV, 90% GMP 2 pricing of the BRCP house demolition and Meridian Creek culvert replacement scope. In the event that there is a conflict between these Assumptions and Clarifications and any other Contract documents, primacy and precedence is given to these Assumptions and Clarifications.

- 1. Work hours assumed to be 60 hours per week for the following activities within the 2023 In Water Work Window, all others assume a 50 hour:
  - i. Item 4300 Removal of Waterline
  - ii. Item 4600 Clearing & Grubbing
  - iii. Item 4700 Meridian Creek Grading
  - iv. Item 4800 Loose Riprap
  - v. Item 5250 10" Storm Sewer Pipe
  - vi. Item 5300 12" Storm Sewer Pipe
  - vii. Item 5450 24" Storm Sewer Pipe
  - viii. Item 7200 CIP Retaining Wall
  - ix. Item 14900 12" Ductile Iron Water Pipe
- 2. Assume working hours and lane closures from 7:00a to 6:00p, Monday through Saturday.
- 3. Assumes City Council approval of GMP pricing on 07/17/2023 with full Notice to Proceed issuance no later than 07/25/2023.
- 4. No "Buy American" or "Buy America" Clauses have been established in the contract documents associated with this GMP.
- 5. Includes Contractor Quality Control.
- 6. Quality Control will be provided per ODOT Field Tested Materials Acceptance Guide.
- 7. All pricing assumes no Traffic Moratorium restrictions being enforced for this scope.
- 8. Message boards will be utilized 2-weeks prior to traffic change; (3) traffic pattern changes assumed.
- 9. Assumes no pedestrian access along South sidewalk during South construction phase.
- 10. Conduits supplied & installed by TSJV include:
  - i. (2) 6" PGE
  - ii. (2) 4" PGE
  - iii. (1) 4" COW
- 11. Franchise utilities to furnish conduit and appurtenances for Joint Utility Trench:

i. Ziply iv. Verizon

ii. Zayo v. Lumen

iii. Comcast vi. Clackamas Broadband

#### vii. ABB

- 12. TSJV to install materials provided by franchise utility companies as shown on BB01.
- 13. Comcast will be relocated to allow for NW Natural relocation East of Meridian Creek
- 14. NW Natural will be relocated prior to work commencing.
- 15. PGE will be relocated prior to work commencing.
- 16. Joint Utility Trench backfill complies with PGE ESR Trench Detail on sheet 93 Figure 38 using Select Backfill requirements (paragraph 6.2.4).
- 17. Assumes a minimum 8-hour 12" watermain shutdown for tie-over will be allowed.
- 18. Includes Survey for GMP 1 & 2 scope.
- 19. Temporary Asphalt Patch is bid as a single 2" lift of HMA.
- 20. Fuel escalation based off ODOT Monthly Fuel Price (MFP) for June 2023. https://www.oregon.gov/odot/Business/Estimating/MFP.pdf
- 21. Temporary bypass pumping Item 3700 includes set up, rent, and removal of stand-by bypass pump.
- 22. Temporary bypass pumping Item 3750 includes hourly operating costs if bypass pumping is required.
- 23. Total Contingency (Cost of Work and Design Builder) amount was developed with specific identified risks. However, the contingency can be utilized by Design Builder for other items as stipulated in Design Build Agreement section 9.D. The Design Builder Fee will be applied to the Cost of Work Contingency for items stipulated in section 9.D(a). The Design Builder Fee will not be applied to Design Builder Contingency for items stipulated in section 9.D(b). Although specific contingency items have been identified and included within Exhibit B.1, said contingencies may be applied towards other direct Cost of the Work with the Owner's written approval that are not included in the Design Builder's contingency as stipulated in section 9.D.1.
- 24. Cost of Work Contingency items contained in Exhibit B.1 will have the Design Builder's fee of 13% applied; Bid Item 30000, 30100, 30200, 30300, 30400, 30500.
- 25. Contingency Item 30000's (Unforeseen Utility or Condition) intended use is for costs associated with accommodating utilities or conditions encountered that have not been identified on Contract drawings and/or by Franchise utilities.
- 26. Contingency Item 30100's (Flagging) intended use if for additional flagging requirements in the event that a full closure of Willow Creek Drive cannot be implemented.
- 27. Contingency Item 30200's (Fuel Escalations) intended use if to cover potential fuel escalations due to market volatility.
- 28. Contingency Item 30300 (Wall Over Excavation and Stabilization) will be used at the direction of the EOR in the event that unsuitable native ground conditions are present beneath the CIP retaining wall at the designed subgrade elevation.
- 29. Contingency Item 30400 (Trench Over Excavation and Stabilization) will be used at the direction of the EOR in the event that unsuitable native ground conditions are present at the designed subgrade elevation of storm water facility trenches.
- 30. Contingency Item 30500 (Tigard Available Aggregate Supply) will be utilized in the event that Tigard Sand & Gravel is unable to supply the necessary amount of aggregate required for construction of GMP 2 scope. The contingency value has been assumed that aggregate procurement will be shifted to CrabTree Crushing Inc.
- 31. Item 100780 "KPFF Engineering Services for Construction" will be Not To Exceed amount.

- 32. The quantities will be established by the 100% IFC plan set and agreed upon for each GMP. Changes to quantities after the 100% plan set will be addressed by a Work Change Directive. Any deductions from scope will remain within the GMP and treated as an Owner Directed Allowance. The Owner Directed Allowance will be used to fund additions of scope or item overruns after 100% Plan quantities have been established.
- 33. Owner Controlled Allowance items contained in Exhibit B.1 have the Design Builder's fee of 13% factored in; Bid Item 50000, 50100, 50200, 50300, 50400, 50500, 50600.
- 34. Allowance Item 50000 (Extra 3 Inch of AC For Long Term Traffic) is intended to cover additional costs in the event that GMP 3 is not executed and the base assumption of a 2" temporary asphalt patch is unacceptable for extended durations (beyond completion of GMP 2 construction).
- 35. Allowance Item 50100 (GMP 3 H-Pile Procurement) is intended for the procurement of permanent H-Pile to be used in construction of the proposed Boeckman Rd. bridge within GMP 3. Pricing is based upon 60% GMP 3 drawings and specifications and is subject to change after the competitive selection process.
- 36. Allowance Item 50200 (GMP 3 Pipe Pile Procurement) is intended for the procurement of permanent pipe pile to be used in construction of the proposed Boeckman Rd. bridge within GMP 3. Pricing is based upon 60% GMP 3 drawings and specifications and is subject to change after the competitive selection process.
- 37. Allowance Item 50300 (GMP 3 MSE Wall Supplier Engineering) is intended for the procurement of a MSE wall supplier and construction submittals in advance of GMP 3. Pricing is based upon 60% GMP 3 drawings and specifications and is subject to change after the competitive selection process. Pricing excludes any material procurement associated with the MSE wall scope.
- 38. Allowance Item 50400 (GMP 3 Bridge Girders Engineering) is intended for the procurement of a bridge girder supplier and construction submittals in advance of GMP 3. Pricing is based upon 60% GMP 3 drawings and specifications and is subject to change after the competitive selection process. Pricing excludes any material procurement associated with the bridge girder scope.
- 39. Allowance Item 50500 (Design Growth) is intended to be applied towards design changes between the 90% GMP and 100% IFC drawing set and specifications.
- 40. Allowance Item 50600 (OR CAT Tax) will be a direct pass thru of TSJV's Corporate Activity Tax burden.
- 41. GMP 2 does not include costs for the Construction Project Manager. Assumes cost for the Construction Project Manager during GMP 2 will be covered in GMP 3 or Preconstruction Services.
- 42. Excludes setup of field office and ability for colocation with Owner/Owner's Representative.
- 43. Excludes Contractor acquisition of land for laydown/staging area. Assumes City property at 7550 Boeckman Rd. will be used as needed for laydown/staging needs.
- 44. Excludes any post construction survey as-builts.
- 45. Excludes cost of any required Permits.
- 46. Excludes any tree permits or fees for tree removals.
- 47. Excludes all public relations and accommodations.
- 48. No impacts from planned or future adjacent projects.
- 49. Excludes flagging or traffic control for pedestrian traffic during South sidewalk closure.
- 50. Excludes temporary concrete barrier.
- 51. No costs or schedule delays are included due to third party utility relocations.
- 52. No landscape restoration included outside of the Meridian Creek limits.

- 53. No permanent property restoration has been included such as sidewalks, curb, and permanent asphalt. Temporary asphalt sidewalk, curbs, and pavement have been included in the bid.
- 54. Excludes removal & replacement of hazardous materials unless identified in the contract drawings and specifications.
- 55. Excludes over-excavation and stabilization of soils. If unsuitable soils are encountered, Cost of Work contingency will be utilized.
- 56. Excludes Quality Assurance.
- 57. Excludes ODOT requirement of laser profiling of pipe.
- 58. Exclude removal, relocation, and/or restoration of any utility not shown or called out on the Contract drawings.
- 59. Excludes removal, restoration, and/or addition of water services within the limits of proposed 12" watermain relocation.
- 60. Excludes temporary waterline or bypass.
- 61. Excludes trash racks on all storm drainpipes.
- 62. Excludes paint on surface of retaining wall.
- 63. Excludes veneer sealant.
- 64. Excludes anti-graffiti coating on any and all surfaces.
- 65. Excludes waterproofing/damp proofing coating on subgrade or water bearing concrete surfaces.
- 66. Excludes bentonite plug on upstream edge of retaining wall.
- 67. Excludes any permanent striping.

#### DATE OF PROPOSAL EXPIRATION:

September 26, 2023

Notwithstanding anything to the contrary within this document, labor & equipment contained in Exhibits B.2, B.4, & B.5 have been negotiated and approved by the City of Wilsonville prior to the commencement of work and are stipulated rates.

### **Exhibit B.4**

## **GMP 2 - Equipment Rates**

Based on 11/22/2022 Equipment Watch

## **Boeckman Road Corridor Project Exhibit B.7 – Permitting Plan**

GMP #2 - 90% House Demolition and Meridian Creek Culvert Replacement

Permits required for construction of GMP 2 will be coordinated and applied for by TSJV & KPFF. The City of Wilsonville will directly pay for all fees associated with permits required for GMP 2.

### Boeckman Road Corridor Project Exhibit B.8 – Right of Way Acquisition Plan

#### GMP 2 - 90% House Demolition and Meridian Creek Culvert Replacement

No permanent Right of Way acquisition has been identified for construction of GMP 2.

The following Temporary Construction Easements (TCE) have been identified for construction of GMP 2:

- **Parcel 7** 3 1 W 12DD 05400 City Council approval February 23, 2023
- Parcel 26 3 1 W 13AB 15612 City Council approval February 23, 2023
- Parcel 27 South Boeckman (Sta. 65+80) 3 1 W 13AA 18701 City Council approval April 17, 2023

The following Structure Easement has been identified for construction of GMP 2:

■ Parcel 30 – North Boeckman (Sta. 64+80) – 3 1 W 12DD 05400 – City Council approval April 17, 2023

### **Construction Proposal: Key Personnel**

City of Wilsonville - Boeckman Road Corridor Project

GMP 2 - House Demolition & Meridian Creek Culvert Replacement

### **Key Personnel:**

- Ken Kubacki Construction Project Principal
- Ryan Silbernagel Construction Project Manager
- Eric Sommers Construction Superintendent
- Joshua Smith Construction Project Engineer
- Toni Martinez Construction Project Administrator
- Jim Castaneda Construction Project Safety Manager

Subcontractors & Suppliers: See Exhibit C.5

## **Construction Proposal: Construction Document List**

### **Construction Proposal: Procurement Plan**

City of Wilsonville - Boeckman Road Corridor Project

House Demolition and Meridian Creek Culvert Replacement

#### **Criteria for Procurement Plan**

- Progressive Design-Build Agreement Section 14: Subcontracting
- Design-Build General Conditions Article 6: Design-Builders Responsibilities
  - Section 6.13: Concerning Subcontracting and Self-Performance

### **Application of Criteria**

For this GMP, the Design Builder intends to comply with Section 13 of the Progressive Design-Build Agreement and the Design-Build General Conditions Section 6.13 using a mixture of self-performed work and subcontracted work as shown in the Proposal for the project. The means of subcontracting the work will be determined as set forth in the General Conditions and the estimated value of work in compliance with General Conditions 6.13 A-E.

#### General Conditions 6.13:

6.13 Selection of sources of design services, labor, material, equipment, and services necessary to accomplish the Work is governed by this section. For the purposes of this section, "Subcontractor" also includes suppliers.

#### 6.13.A:

The Design-Builder shall seek to develop Subcontractor interest in the Work and shall furnish to the City a list of potential qualified Subcontractors from whom bids may be requested. The City may identify additional potential qualified Subcontractors from whom the Design-Builder shall request bids.

The subcontractor trades, including suppliers for this GMP are shown in Exhibit C.4 and include:

- Aggregates
- Asphalt Concrete Paving
- Concrete Reinforcement
- Culvert Pipe
- Demolition Structures
- Electrical
- Erosion & Sediment Control
- Handrail
- JUT Materials
- Landscaping
- Manhole Channelization
- Masonry

- Material Disposal
- Pipe Inspection/TX
- Precast Structures
- Quality Control (QC)
- Ready Mix Concrete
- Saw Cutting
- Storm Drain Materials
- Striping
- Survey
- Tree Removal
- Trucking
- Waterline Materials

Material supply for self-performed work is included in the cost for that work and will be provided by the Design-Builder.

Per Section 6.13.D.2 subcontracted or self-performed work valued at \$10,000 or less is exempt from the competitive selection process. The following work is expected to meet this requirement and subcontractors will be selected from the list in Exhibit C.5:

- Concrete Reinforcement
- Electrical
- Erosion & Sediment Control
- Handrail
- JUT Materials
- Manhole Channelization

- Pipe Inspection/TV
- Saw Cutting
- Storm Drain Materials
- Striping
- SurveY

Per Section 6.13.D.3 subcontracted work valued at less than \$100,000 but more than \$10,000 is exempted provided the Design Builder receives a minimum of three written quotations and awards the subcontract to a qualified Subcontractor at a fair and reasonable price. The City may waive the three-quotation minimum requirement after reviewing the Design Builder's good faith efforts to obtain them. The following subcontracted work is expected to meet this exemption and quotes will be requested from the subcontractors listed in Exhibit C.5. Prior to bidding to subcontractors, if the work is estimated to exceed \$100,000 it will be subcontracted in accordance with the process outlined in 6.13.E below.

- Aggregates
- Asphalt Concrete Paving
- Culvert Pipe

- Demolition Structures
- Landscaping
- Masonry

- Material Disposal
- Precast Structures
- Quality Control (QC)
- Ready Mix Concrete

- Tree Removal/Clearing
- Trucking
- Waterline Materials

Per Section 6.13.E work valued at over \$100,000 will be awarded based on the competitive selection process.

• N/A – No subcontracted scope will be procured under this section for GMP 2.

#### 6.13.B:

The proposal must include an explanation as to why self-performance or exemption from the competitive selection process is in the City's best interest.

The Design Builder Proposes to self-perform flagging, traffic control set up and maintenance, erosion control, clearing and grubbing, aggregate base and paving as allowed in General conditions 6.13.B and C. Justification for the self-performed work will be more fully explained below. The Design Builder will fully respond to any questions or comments submitted by the City in regard to the non-competitive process and is fully insured to the extents required.

- Special advantages or capabilities of the Design-Builder or Subcontractor to perform the Work:
  - The Design Builder has the capability to perform both utility installation and structural concrete scopes. This provides efficiency and eliminates the need for sequencing and mobilization of multiple subcontractors for these scopes of work.
  - Design Builder has a in-house TCS to develop traffic control plans and has the capability to provide Traffic Control and Flagging staff necessary.
- Market availability of the requested services or products:
  - Due to lead times, the Design Builder is proposing to purchase the GMP 3 H-pile and pipe pile as part of GMP 2. An allowance for these items has been included in GMP 2 and the competitive process will be used to select supplier.
  - Due to development and review times, the Design Builder is proposing to procure engineering services for GMP 3 bridge girders and MSE wall designs as part of GMP 2. An allowance for these items has been included in GMP 2 and the competitive process will be used to select supplier.
- Demonstration that the process is reasonable and fair:
  - Independently verified Guaranteed Maximum Price and risk reduction for the city: The Design Builder requests that the City's Owner Representative provide

an independent cost estimate for the work per 6.13.B. This will insulate the City from the risk of high subcontractor costs. Additionally, the Design Builder agrees to and supports open-book costing for all self-performed work on the project. All questions or comments submitted by the City in regards to this process will be fully responded to.

- The following scopes are requested to be performed by TSJV as self-performed work and are above \$10,000 in value. These scopes of work were evaluated against an Independent Cost Estimate:
  - Traffic Control
  - Flagging
  - o Erosion Control
  - Removals (Surfaces, Curbs, Retaining Walls, etc.)
  - Excavation/Grading

- Storm SewerInstallation/Removal
- Waterline Removal and Relocation
- o CIP Retaining Wall
- The following scopes of work are requested to be performed by TSJV and are less than \$10,000 in value. Although exempt by section 6.13(D), because the value of work is less than \$10,000.

# **GMP 2 - Procurement Method**

| ltem                          | Estimated Value                | Procurement Method  |  |
|-------------------------------|--------------------------------|---|--|
| 1. Aggregates                 | Between \$10,000 and \$100,000 | Selected from a minimum of three requested written quotations.  |  |
| 2. Asphalt Concrete Paving    | Between \$10,000 and \$100,000 | Selected from a minimum of three requested written quotations   |  |
| 3. Concrete Reinforcement     | Less than \$10,000             | Selected from a minimum of three requested written quotations   |  |
| 4. Culvert Pipe               | Between \$10,000 and \$100,000 | Selected from a minimum of three requested written quotations   |  |
| 5. Demolition - Structures    | Between \$10,000 and \$100,000 | Selected from a minimum of three requested written quotations   |  |
| 6. Electrical                 | Less than \$10,000             | Continuation of Subcontractor selected previously the through "Competitive Process" with a value less than \$10,000 |  |
| 7. Erosion & Sediment Control | Less than \$10,000             | Selected from a minimum of three requested written quotations   |  |
| 8. Handrail                   | Less than \$10,000             | Selected from a minimum of three requested written quotations   |  |
| 9. JUT Materials              | Less than \$10,000             | Selected from a minimum of three requested written quotations   |  |
| 10. Landscaping               | Between \$10,000 and \$100,000 | Selected from a minimum of three requested written quotations   |  |

| ltem                       | Estimated Value                | Procurement Method  |
|----------------------------|--------------------------------|---|
| 11. Manhole Channelization | Less than \$10,000             | Selected from a minimum of three requested written quotations   |
| 12. Masonry                | Between \$10,000 and \$100,000 | Selected from a minimum of three requested written quotations   |
| 13. Material Disposal      | Between \$10,000 and \$100,000 | Selected from a minimum of three requested written quotations   |
| 14. Pipe Inspection/TV     | Less than \$10,000             | Selected from a minimum of three requested written quotations   |
| 15. Precast Structures     | Between \$10,000 and \$100,000 | Selected from a minimum of three requested written quotations   |
| 16. Quality Control (QC)   | Between \$10,000 and \$100,000 | Selected from a minimum of three requested written quotations   |
| 17. Ready Mix Concrete     | Between \$10,000 and \$100,000 | Selected from a minimum of three requested written quotations   |
| 18. Saw Cutting            | Less than \$10,000             | Selected from a minimum of three requested written quotations   |
| 19. Storm Drain Materials  | Less than \$10,000             | Selected from a minimum of three requested written quotations   |
| 20. Striping               | Less than \$10,000             | Continuation of Subcontractor selected previously the through "Competitive Process" with a value less than \$10,000 |
| 21. Survey                 | Less than \$10,000             | Best combination of qualifications and price  |
| 22. Tree Removal           | Between \$10,000 and \$100,000 | Selected from a minimum of three requested written quotations   |
| 23. Trucking               | Between \$10,000 and \$100,000 | Selected from a minimum of three requested written quotations   |
| 24. Waterline Materials    | Between \$10,000 and \$100,000 | Selected from a minimum of three requested written quotations   |
