## “Celebrating In Every Color” Window Mural Design

This design is called Celebrating In Every Color and it expresses a vibrant and joyful celebration of queer love, identity and community. The mural is inspired by the Progress Pride Flag and is designed with a rainbow gradient from left to right. Monochromatic hues make up each of the seven panels, a nod to the visual spectrum depicted in the illustrations that honors the full diversity of the LGBTQIA+ community. The design allows for light to come into the building and also invites people to pause, reflect and celebrate Pride in all its forms
