**EXECUTIVE SUMMARY**

The Village Board previously approved a task order for design engineering services related to the Swift Street Water Main Reconstruction Project at its January 21, 2026 meeting. Fehr Graham, as the Village Engineer, is completing the design for the project. Once the bid process is complete, the Board will be asked to approve the acceptance of construction bids and proceed with implementation.

This project will replace aging and outdated transite water main infrastructure along Swift Street, resolving long-standing hydraulic issues and supporting the Village’s broader effort to improve water system reliability and public health through phased investment in critical utility upgrades.
