EXECUTIVE SUMMARY

The Community Development Committee has proposed a demolition permit to ensure safe and compliant demolition practices. The permit, drafted based on neighboring communities' permits, seeks input and recommendations from the committee on its content and fee structure. The committee moves to recommend the board's approval of an ordinance based on the attached permit, with any necessary amendments.

The attached permit and demolition requirements have been reviewed by the Village Building official, and no additional recommendations have been made at this time.

At their April meeting, the Community Development Committee requested to review a draft ordinance, which is being drafted by the village attorney, and will be presented to the committee.

At the May meeting, The Community Development Committee also discussed the inclusion of a bonding requirement for permit applicants, to protect the village from potential financial liabilities associated with the demolition process.
