

Jan 31, 2025

Bill Emmert
Chairman, Village of Winnebago Zoning Board
108 West Main Street
Winnebago, IL 61088

Dear Mr. Emmert,

Park Hills Church is requesting consideration by the Village of Winnebago Zoning Board for a variance related to a proposed expansion for our church located at 500 W Winnebago Street. I believe it is already on your agenda for the regular Feb 4th meeting. In addition to the required documentation, I wanted to provide some background to our request.

The church was originally started by members of the Evangelical Congregational Denomination in 1977. At that time, they were meeting in various places until the congregation grew and they built the small church building located at 500 W Winnebago Street. We have been holding regular church services at this location since about 1986. The current building is only a portion of what was originally planned and designed. The congregation built the portion of the church they could afford at the time with the goal of completing the building as the congregation grew. Unfortunately, the size of the building limited the size of the congregation such that accumulating the funds needed for the expansion was not possible. In 2019 the members of the Winnebago Evangelical Congregational Fellowship merged with a Park Hills Church (main campus in Freeport) to become Park Hills Church – Winnebago Campus. In May of 2023, we started the process expanding the church as was originally planned by the founders. After several meetings with the village, permit ready Site and Building plans were submitted for review and approval in early October 2024.

On Jan 24th, 2025 we were notified by the Village of an issue with the planned location of the parking area. The location originally envisioned for parking is now in violation of the 2019 UDO Article 12.14 (2) as we are zoned District No 1, Single Family Residential. Since receiving notice of non-conformance, we have examined different options and believe the best course of action would be to request consideration for a variance to allow the offsite parking location to remain as designed on our Site Plan.

Village Administrator, Joey Dienberg has been helpful in providing guidance in the process. Attached are the documents requested in the new Zoning Application he provided. We plan to have our Lead Pastor, Chris Stukenberg as well as our Associate Winnebago Campus Pastor Mark DeWall at the meeting on Tuesday Feb 4th. I will join via online connection as I will unfortunately be out of town next week.

Thank you for your consideration of our request. I will be your primary contact for any questions or additional information needed as we work through the process. I can be reached at rich.graham@parkhillsefc.org or via cell phone at 815-821-5019.

Sincerely,

Rich Graham
Executive Pastor
Park Hills Church

Park Hills Church Request for Variance – January 31, 2025

During the Village of Winnebago (VOW) engineering review of the proposed expansion of the Park Hills Church at 500 W Winnebago Street – it was identified that the current zoning requirements are in conflict with the proposed expansion. As noted in points 6, 7, & 8 from the Jan 24th letter from Fehr- Graham to Frank Eubank:

“Per Village UDO Article 12.14(2) Required Setbacks, no paving for parking lots is permitted within front or side yards abutting a street on land zoned for residential activity. In addition, “Ensure all setback requirements for parking lots meet the Village UDO requirements in Article 12.14”. Finally, “Ensure building setback meets Village Zoning Ordinance requirements”

We see three possible options to resolve the conflict with the UDO and the site plans submitted:

- Option 1 – request zoning change to a classification that would allow the parking area as drawn.
- Option 2 – re-engineer the parking area to meet UDO 12.14(2) as currently zoned
- Option 3 – request a variance from UDO 12.14(2) to allow the parking area to remain in the location as designed.

After our review of the UDO zoning options, the current site conditions and the other functional requirements of the building and parking area we have determined the most advantageous path forward would be requesting a variance. Basis for our request is noted below as we look at each option.

Option 1

Our reading of the UDO indicates the only permitted zoning classifications (other than District No.1/2 - Residential) that would allow a parking area as drawn are General Industrial and Agricultural. While re-zoning the area “Agricultural” would alleviate the compliance issue, the classification seems to be outside the general purpose and intent of that type of District and as such is not considered a viable option. Districts No. 3, 5, & 8 do not list “Church” as a permitted use in the UDO.

The initial review conflicts in re-zoning to District No.4 - General Industrial are as follows:

- **Yard Requirements**
 - The existing building does not meet the required Front Yard Requirement of Fifty (50) feet 6.07.01(5)a. Even in that were allowed per an approved variance we would need a variance for the proposed new addition to allow for sufficient connection between the new and existing building that would limit the overall effectiveness of the building.
 - The as drawn parking area would not allow for the required forty (40) foot side yard separation 6.07.01(5)b between the General Industrial zone and the adjacent Residential zone. The current parking plan is in compliance with the Residential side yard separation of 12’ minimum. Reducing the parking area by 28’ on the East side would reduce the number of required parking spots required in the 12.10 Schedule of Required Parking.
- **Parking Lot Lighting**
 - Reviewing 9.03.05(3)b lighting requirements. Industrial Zoning Districts require significantly higher minimum lighting for parking areas as compared to the Residential requirements. We are concerned that the additional minimum lighting requirement would be a nuisance to the adjoining properties who are all residential. The as drawn lighting plan meets the residential lighting requirements.

Option 1 Conclusion – It is possible that there are other conflicts in District No. 4 not yet identified, but we believe that the items above present enough of a concern to make the change to this district not viable because compliance to other aspects of the UDO present significant issues to the overall project.

Option 2

We completed a preliminary review of the options available to re-engineer the parking area to comply with both the District No. 1 zoning requirements of driveway only in the side yard and parking in the rear while also considering the UDO 12.10 Schedule of Required parking.

The preliminary review concerns are as follows:

- **Available Space**
 - The lot space in the back of the property is needed to meet the Detention Pond and runoff requirements per the UDO to accommodate 100-year flood conditions. The movement of the parking lot would reduce the size of the detention pond which appears to make the pond non-compliant to current UDO standards.
 - Reducing the size of the parking area to fit with the detention pond would not allow for the required parking lot space per the UDO 12.10 Schedule of Required Parking.
- **Functional Impact**
 - Moving the parking area to the back of the building would require the majority of the congregants to walk around the building to the main entrance which is a significant inconvenience for many.
- **Neighborhood Impact**
 - Moving the parking area to the back yard of the church would greatly disturb the natural setting of the property by requiring nearly all the trees to be removed from the property to try and fit the parking in that area. This beautiful natural setting of the building and the neighborhood.

Option 2 Conclusion – It is possible that there are other conflicts in the move of the parking area not identified in the initial review. However, the discussion with the Civil Engineer indicates that this is not a feasible option to stay in compliance with the water mitigation aspects of the UDO. We would need to start a new and comprehensive engineering study with limited opportunity for successful implementation.

Option 3

As a result of our review - We are requesting the Village of Winnebago Zoning board accept our application for a variance in accordance with UDO 15.03 (3) **Variances & Findings of Fact**. here are the responses to the 15.03 Variances and Findings of Fact for your consideration:

- a. That there are special circumstances, applying to the land or buildings for which the variance is sought, which circumstances are peculiar to such land or buildings and do not apply generally to land or buildings in the vicinity;**

PHC Response: The difficulty of moving the parking to the back of the lot are: Shaping of the parking area would not allow for the number of spaces required by UDO 12.10 without impacting the required water detention requirements. This would also require removal of many of the trees and natural foliage that make the property attractive to the neighborhood and also help with water run-off issues. There would also be potential issues with close proximity to the creek located to the south of the property with the elimination of the buffer between the impervious surfaces. The current location allows for separation from the creek, collection of water per UDO requirements and movement to the properly sized detention pond before discharge. The proximity of the proposed parking area is close to the current parking areas that have been used for over 30 years. The proposed parking also provides opportunity community parking for games and events at the park North of the church.

- b. That said circumstances are such that the strict application of the provisions of this ordinance would deprive the applicant of the reasonable use of such land or buildings;**

PHC Response: Without the variance, the new addition would not be able to comply to the required parking ordinance which would then not allow for the construction of the addition that is needed for future church growth. The land identified for the new addition and parking area were part of the original purchase of the land and were part of the original plans for expansion when the existing church was built.

- c. That the variance as granted by the Zoning Board of Appeals is the minimum variance that will accomplish the reasonable use of land or building in question;**

PHC Response: Granting the variance that would allow the parking area per the submitted drawing would eliminate any further variance requests or the complications of requesting a zoning change which would be a very significant cost impact and may lead the expansion to be unfeasible.

- d. That the granting of the variance will be in harmony with the general purpose and intent of this ordinance and will not be injurious to the neighborhood or otherwise detrimental to the public welfare.**

PHC Response: The placement of the parking areas will not be detrimental to the neighborhood appearance. As the church only borders the back yards of the homes in the area, it would not adversely impact the neighborhood look or feel. Having off-street parking would most likely enhance the area look in that for the past 30ish years the church members have been parking in a small area in front of the church, along the street, and across the street in the grass. This parking addition will bring those cars onto the church property and would improve the overall neighborhood view/feel.

- e. The property in question cannot yield a reasonable return if permitted to be used only under the conditions allowed by the regulations in that district.**

PHC Response: The purpose for the church expansion is that the physical size of the current building does not allow for the church growth that we are experiencing. We are limited in space for children, youth and adult

2525 W Stephenson St - Freeport, IL 61032

815-232-6159

www.parkhillchurch.com

gatherings. The denial of the parking variance would not allow for the church expansion to occur which then limits the future growth of the church. This would most likely require us to re-locate entirely so that we can accommodate the church growth and increased community we are experiencing.

- f. The extraordinary or exceptional conditions of the property, requiring the request for the variance, were not caused by the petitioner.**

PHC Response: The church property was purchased over 35 years ago with the vision of this expansion of the building and parking area roughly as currently proposed. The original ordinance (originally published in 1957 and subsequently amended prior to being superseded by the current UDO) did not include the current requirements when the property was purchased. Park Hills Church has not initiated any actions or had any inaction that would lead to the non-compliance.

- g. The proposed variance will alleviate a peculiar, exceptional, or undue hardship, as distinguished from a mere inconvenience or pecuniary hardship.**

PHC Response: The variance will alleviate the hardship that strict compliance would inflict due to the upgraded and updated UDO adopted since the property was originally purchased.

- h. The denial of the proposed variance will deprive the petitioner the use of his/her property in a manner equivalent to the use permitted to be made by the owners of property in the immediate area.**

PHC Response: First Presbyterian Church of Winnebago, 208 W Winnebago Street (approximately 840' East of the Park Hills Property) has parking areas that are in the front (North) and side (East) in relationship generally similar to what Park Hills is requesting. Our requested variance would align our proposed use with their current use.

- i. The proposed variance will result in a structure that is appropriate to and compatible with the character and scale of structures in the area in which the variance is being requested.**

PHC Response: The parking area requested will be appropriate for the use of the church, it is compatible with other parking areas in the vicinity, except that it will be landscaped to meet current standards and will be complimentary to the local feel with natural plantings and appropriate lighting per UDO 12.17. Safety is always a concern at churches with many activities that occur at night. Having the parking area close to the road and public areas instead of located behind the building that is an undeveloped location would provide a safer and more secure public parking area for church and non-church use.

PLANNING & ZONING APPLICATION

217-785-5500
Division of Ecosystems & Environment

Disclaimer

The Illinois Natural Heritage Database cannot provide a conclusive statement on the presence, absence, or condition of natural resources in Illinois. This review reflects the information existing in the Database at the time of this inquiry, and should not be regarded as a final statement on the site being considered, nor should it be a substitute for detailed site surveys or field surveys required for environmental assessments. If additional protected resources are encountered during the project's implementation, compliance with applicable statutes and regulations is required.

Terms of Use

By using this website, you acknowledge that you have read and agree to these terms. These terms may be revised by IDNR as necessary. If you continue to use the EcoCAT application after we post changes to these terms, it will mean that you accept such changes. If at any time you do not accept the Terms of Use, you may not continue to use the website.

ZONING APPLICATION

Village of Winnebago

Phone: (815) 335-2020 ■ Fax: (815) 415-8491
108 W. Main Street, Winnebago, Illinois 61088

It is recommended that a pre-application conference be held to ensure that all applicable information is provided, and the application is filled out correctly. Please call 815-335-2020 to schedule a pre-application conference. Delays in obtaining a public hearing date may result from incomplete or errant applications.

REQUIRED APPLICATION MATERIALS

The following materials must be submitted to the Planning and Zoning Department before a Public Hearing can be scheduled. Incomplete applications cannot be processed.

☒ Application Form (Original Form, pages 7, 8, & 9)

☐ Application Fee (See Fee Schedule, page 4)

Waived Per Jde7 D 1-28-25

☒ Legal Description

Project Drawings:

☒ Preliminary or Final Site Plan (1 copy). Include project data [i.e., building area, land area, setbacks, coverage, parking and landscaping calculations, etc.]. The information required will vary depending on the type of request being made. However, all site plans should be drawn to scale and be accurate to the best of the petitioner's ability.

☒ Preliminary or Final Engineering

☒ Floor Plans

☒ Building Elevations

☒ Landscape Plan (indicate species, plant location, quantity, size, spacing, and easement/utility locations)

☐ Sign elevations

Full size plans
Delivered OCT 24

Plan in Process

Plan in Process

Other Documents:

☒ A detailed written statement explaining the reason for the request.

The Zoning Board of Appeals and Village Board base their decisions on the standards listed below. It is in the best interest of the applicant to base their presentation on the applicable set of standards when presenting their petition.

☐ Applicant should respond to the following statements while presenting his or her request to the Zoning Board of Appeals, along with an additional written statement detailing the nature of the proposed use. If this application is for a **SPECIAL USE PERMIT**, pursuant to Unified Development Ordinance Article 14.03:

- The proposed use at the specified location is consistent with the goals, objectives, and policies of the Comprehensive Plan;
- The proposed use is consistent with the general purpose and intent of the applicable zoning district regulations and complies with requirements of the Article;
- The proposed Special Use is not materially detrimental to the public health, safety, comfort, and general welfare, and will not result in material damage or prejudice to other property in the vicinity;
- The proposed use is compatible with, and preserves or enhances, the character and integrity of adjacent development, and includes improvements necessary to mitigate adverse development-related impacts, such as traffic, noise, odors, visual nuisances, or other similar adverse effects to adjacent development and neighborhoods;
- The proposed use does not generate pedestrian and vehicular traffic that will be hazardous to the existing and anticipated traffic in the neighborhood;
- The proposed Special Use complies with all fire, health, building, plumbing, electrical, and stormwater drainage regulations of the Village, County, State and Federal agencies; and

g. Adequate utilities exist to service the proposed Special Use.

- ☒ Applicant should respond to the following statements while presenting his or her request to the Zoning Board of Appeals, along with an additional written statement describing the specific nature of the proposed variation and the practical difficulty and perceived hardship resulting from a strict and literal interpretation of a specified regulation of this chapter if this application is a request for a **VARIANCE**, pursuant to Unified Development Ordinance Article 15.03 et seq.

15.03 (3) Variances & Findings of Fact

- Attached.*
- a. That there are special circumstances, applying to the land or buildings for which the variance is sought, which circumstances are peculiar to such land or buildings and do not apply generally to land or buildings in the vicinity;
 - b. That said circumstances are such that the strict application of the provisions of this ordinance would deprive the applicant of the reasonable use of such land or buildings;
 - c. That the variance as granted by the Zoning Board of Appeals is the minimum variance that will accomplish the reasonable use of land or building in question;
 - d. That the granting of the variance will be in harmony with the general purpose and intent of this ordinance and will not be injurious to the neighborhood or otherwise detrimental to the public welfare.
 - e. The property in question cannot yield a reasonable return if permitted to be used only under the conditions allowed by the regulations in that district.
 - f. The extraordinary or exceptional conditions of the property, requiring the request for the variance, were not caused by the petitioner.
 - g. The proposed variance will alleviate a peculiar, exceptional, or undue hardship, as distinguished from a mere inconvenience or pecuniary hardship.
 - h. The denial of the proposed variance will deprive the petitioner the use of his/her property in a manner equivalent to the use permitted to be made by the owners of property in the immediate area.
 - i. The proposed variance will result in a structure that is appropriate to and compatible with the character and scale of structures in the area in which the variance is being requested

- ☐ Applicant should respond to the following statements while presenting his or her request to the Zoning Board of Appeals for a **ZONING DISTRICT CHANGE / ZONING MAP AMENDMENT**, pursuant to Unified Development Ordinance 18.04.

- N/A*
- a. Legal owners of the property(s) to be rezoned. If the property is held in an Illinois Land Trust, a Statement of Beneficial Interest is also required;
 - b. Legal Description of the property(s) to be rezoned;
 - c. Common street address of property(s) to be rezoned;
 - d. Size of property (in square feet or acres);
 - e. Current zoning of property;
 - f. Requested zoning of property;
 - g. Narrative description of the reasons for requested rezoning;
 - h. Estimated impact of rezoning on surrounding neighborhood;
 - i. Vicinity map showing the area to be rezoned

FEE SCHEDULE

LAND USE (ZONING DEVELOPMENT) APPLICATIONS

**Zoning Map Amendment
(Zoning Change):**

*** \$400.00 plus, \$10.00 per acre or part of,
plus consultant fees**

Special Use Permit:

*** \$450.00 plus, \$20.00 per acre or part of,
plus applicable professional fees**

Variance:

*** \$350.00, plus applicable professional
fees**

Planned Residential Development (PRD):

*** \$450.00 plus, \$20.00 per acre or part of,
plus applicable professional fees**

Appeal:

\$250.00 plus applicable professional fees

**Text Amendment /
Future Land Use Plan Amendment**

\$400.00 plus applicable professional fees

ADDITIONAL FEES:

Any fees born because of a report and/or publication required by State Law for the above noted zoning procedures shall be the responsibility of the Applicant.

The above noted fees are *NOT* inclusive of any other fees that may result from other required permits (i.e. building permit, zoning clearance (permit), sign permit, health permit, etc.).

Based on the complexity of the application and subsequent review required, in addition to the listed fees below, at the village's sole discretion applicants may be responsible for additional professional fees incurred by the village during the application process, including but not limited to engineering, legal, or planning review fees.

Notice For All Petitions:

*** When work is commenced prior to obtaining the required "Land Use (Zoning Development) Application(s)", the established fees shall be increased by 50%. The payment of such fee shall not relieve any person from fully complying with the requirements of the Village Unified Development Ordinance, nor from the penalties prescribed within the Unified Development Ordinance, as stated in Article 4.04 and any other applicable portions of the Unified Development Ordinance.**

PROCEDURE CHECKLIST FOR APPLICANT USE

- 1-28 ■ Prospective applicant obtains application packet from Village Office. Blank applications may be faxed or mailed upon request or downloaded off the Winnebago Village website at <http://www.villageofwinnebago.com>. All pages of the application packet should be read thoroughly at this time. If necessary, Village Office personnel will explain procedures and fees involved.
- 1-28 ■ Pre-Application Conference: It is recommended that the applicant contact the Village Office to schedule a time to review the application to ensure that it is complete and includes all applicable materials.
- 1-31 ■ Applicant submits completed zoning application, along with site plan, written statement (when applicable), other required materials and the appropriate fee. Zoning Board will review submitted materials for completeness. Applications are then scheduled for a public hearing before the Zoning Board of Appeals.
- Application in process 2-3-25 ☒ ■ Applicant must contact the Soil and Water Conservation District (SWCD) office directly and make proper application for Zoning Letter and/or Natural Resource Information (NRI) Report. If necessary, SWCD personnel will explain procedures and fees involved. Zoning applications are not complete until SWCD Natural Resource Information (NRI) Reports are properly applied for. Zoning requests will not be scheduled for a public hearing unless a completed NRI Report is forthcoming.
- Attached ■ The "Endangered Species Act" entitles the Illinois Department of Natural Resources (IDNR) to review zoning, special use, and Variance applications for their impact on endangered or protected species. Illinois law allows thirty (30) days for their response. The applicant is responsible for contacting the IDNR, at 5224 South Second Street, Springfield, IL 62701-1787. Additional information can be obtained about this process via the internet address: <http://dnrecocat.state.il.us/ecopublic/>. If you have any questions or comments about endangered species consultation process, you can send an email to DNR.EcoCAT@illinois.gov
- Completed 8-12-24 ■ The "National Historic Preservation Act" entitles the Illinois Historic Preservation Agency to review zoning, special use, and Variance applications for their impact on cultural or historical resources. Illinois law allows thirty (30) days for their response. The applicant is responsible for contacting the Illinois Historic Preservation Agency at (1-217-782-4836).
- ☐ A Notice of Public Hearing is printed in the local newspaper no less than 15 days, nor more than 30 days before the date of public hearing. See fee schedule for applicable fee (Page 4).
- ☐ When applicable, the subject property is posted with a notice sign prepared by Village Office personnel summarizing pertinent case information and the scheduled Zoning Board of Appeals hearing date no less than 15 days before the public hearing.
- ☐ Property owners surrounding the subject property are notified by mail, approximately 15 days before the date of public hearing, provided by Village Office staff summarizing pertinent case information and the scheduled Zoning Board of Appeals hearing date. Other appropriate agencies are also notified at this time. Note that adjoining property owners may legally protest map and text amendments, which may necessitate a super majority vote of the Village Board to approve a petition.
- ☐ Village Office staff review application and submit written staff report to the Zoning Board of Appeals and to the Village Board. Applicant is mailed a copy of this written staff report provided by Village Office staff, usually about 1 week before the date of public hearing.

- ☐ Zoning Board of Appeals (ZBA) conducts a Public Hearing, normally on their regularly scheduled meeting date. The applicant or an authorized agent must appear to present pertinent information and provide testimony under oath. No less than 4 copies of any handouts or exhibits should be made available for ZBA members and staff. One copy will be kept and added to the file as an exhibit(s). Be aware that delays may occur as public hearings can extend to additional Board meetings and may include multiple or returning speakers. The Board deliberates and provides its recommendation based on findings of fact. Unsupportive ZBA recommendations can affect the voting considerations of the Village Board.
- ☐ Zoning Board of Appeals public hearing minutes are transcribed and distributed to Village Board members, usually about 1 week after the close of public hearing. Copies of minutes are available to applicants' following approval of said minutes by the Zoning Board of Appeals. The minutes of the Zoning Board of Appeals public hearing are normally approved the following month.
- ☐ Pertinent case information and ZBA recommendation is presented to Village Board for it's consideration, layover, and decision, usually within 4 weeks after the ZBA provides its recommendation.
- ☐ Individual ordinances for each approved application are signed, certified, and processed through the Village Clerk. A Completed ordinance copy accompanies the applicant's notification of the Village Board decision.

LEGAL NOTICE AFFIDAVIT

I, below signed, hereby understand that in order for my zoning request to be heard, notice of the hearing which it will be heard at must be published in a newspaper of general circulation that is published in the County pursuant to State Law, and as a result, publication fees will incur which I hereby agree to pay the incurred fees.
