### **BACKGROUND:**

Wolfforth has historically been a participant in a group sealcoat project that is organized and overseen by Parkhill Engineering. This allows for the participant cities to collectively bid a much larger sealcoating job than each of us could bid individually, thereby reducing everyone's cost. Parkhill works with us to define the project area, then they put together all bid documents, bid the project, and oversee the work. This year we've budgeted \$317,000 for sealcoating. This has been a successful arrangement and we'd recommend continued participation.
