

AGENDA ITEM COMMENTARY

MEETING NAME:	Economic Development Corporation
MEETING DATE:	September 1, 2026
ITEM TITLE:	Consider and take appropriate action on board chair appointment.
STAFF INITIATOR:	Danielle Sweat-EDC Director

BACKGROUND:

Board President Joel Robinett has made the decision to step down from his role as President of the Wolfforth Economic Development Corporation Board of Directors after many years of serving in this leadership position. Joel is not stepping down from the Board and will continue to serve as a Board member.

Joel has provided steady leadership to the WEDC throughout his time as President and has helped guide the organization through a significant period of growth, new projects, and major initiatives. I am incredibly appreciative of the time, leadership, and support he has given both the organization and me during his tenure as President.

With Joel stepping away from the President position, the Board will need to appoint a new President to serve in that role moving forward. This agenda item will allow the Board to discuss the position and take appropriate action to appoint a new Board President.

While we will certainly miss Joel's leadership in this particular role, I am very glad that we are not losing his experience, perspective, or involvement on the Board.
