

Texas Public Libraries Annual Report - Introduction

This report is due to the Texas State Library and Archives Commission (TSLAC) by April 30, 2024. We strongly urge libraries to report no later than March 31, 2024, to allow staff enough time to process all reports.

The Texas State Library and Archives Commission participates in a national public library data collection system. The purpose of this system is to ensure the collection of comparable data in all states. The data is used for the creation of a composite report on the public libraries of the United States and for state-to-state comparisons by the Institute of Museum and Library Services (IMLS). It is seen and used by researchers as well as policymakers at all levels of government. This report is also used to accredit Texas public libraries and some data elements are used for that purpose. Accreditation-related questions are marked within the questionnaire with a small dark arrow. Libraries meeting the minimum accreditation standards are eligible for federal funding opportunities through TSLAC.

Definitions are important to ensure comparability of data from different libraries and states. Please refer to the definitions as this survey is completed.

Please do not leave any items blank. Estimates are important if exact data are not available.

All questions relate to the library's local fiscal year 2023: the year that ended in calendar year 2023 and included January 1, 2023. If there was a change in the fiscal year, please contact LDN staff to update that information. All information must be entered into LibPAS, the online data collection portal at <https://tx.countingopinions.com>.

These expenditures are from all sources of revenue, including federal, state, Friends group revenue to the library, and foundation funding. The information reported in Expenditures may differ from the information reported in Library Revenue by Source.

Please do not leave any question blank. Enter "0" if the appropriate entry for an item is zero or "none." If an exact figure is not available for a particular item, but it is known that the amount is greater than zero, the librarian should enter an estimate of the amount, and add an explanation in the Notes field. If you need to estimate, please use a standard methodology for doing so. If you have questions, please contact LDN staff.

Outside Government Revenue Sources

Skip the following section if the library did not receive funds from a city or county government outside of the one in which the library is located. Accuracy in this section is essential, as funding from non-local governmental entities impacts the library's population assignment.

If funds were received from government entities outside of the local area, then list the appropriate cities or counties separately and indicate the total of the funds received from each. Make certain these totals are reflected in the local government revenue section: questions 5.1 (city operating), 5.2 (county operating), 5.13 (city capital) or 5.14 (county capital).

Section 6: Library Collection

This section collects data on selected types of materials. It does not cover all materials for which expenditures are reported in the Collection Expenditures section.

Unless otherwise indicated, report for each item, title, and physical unit the amount held at the end of the fiscal year. Physical units are volumes, items, or pieces. For reporting purposes, a title is a publication that forms a separate bibliographic whole, whether issued in one or several volumes, reels, or disks. The term applies equally to printed materials, such as books and periodicals, as well as audio and video materials. Report only items that have been purchased, leased or licensed by the library, a consortium, the state library, a donor or other person or entity. Included items must only be accessible with a valid library card or at a physical library location; inclusion in the catalog is not required. Do not include items freely available without monetary exchange. Do not include items that are permanently retained by the patron; count only items that have a set circulation period where it is available for their use. Count electronic materials at the administrative entity level; do not duplicate numbers at each branch. Do not count un-catalogued paperbacks.

Most software systems include a method of determining number of titles. Libraries should use whatever method their software provides. If no method is available, an estimate should be made and noted.

For purposes of this survey, units are defined as "units of acquisition or purchase". The "unit" is determined by considering whether the item is restricted to a finite number of simultaneous users or an unlimited number of simultaneous users.

Finite simultaneous use: units of acquisition or purchase is based on the number of simultaneous usages acquired equivalent to purchasing multiple copies of a single title. For example, if a library acquires a title with rights to a single user at a time, then that item is counted as 1 "unit"; if the library acquires rights to a single title for 10 simultaneous users, then that item is counted as 10 "units"

Unlimited simultaneous use: units of acquisition or purchase is based on the number of titles acquired. For example, if a library acquires a collection of 100 books with unlimited simultaneous users, then that collection would be counted as 100 "units".

For purposes of this survey, units are defined as "units of acquisition or purchase". The "unit" is determined by considering whether the item is restricted to a finite number of simultaneous users or an unlimited number of simultaneous users.

- Finite simultaneous use: units of acquisition or purchase is based on the number of simultaneous usages acquired equivalent to purchasing multiple copies of a single title. For example, if a library acquires a title with rights to a single user at a time, then that item is counted as 1 "unit"; if the library acquires rights to a single title for 10 simultaneous users, then that item is counted as 10 "units". For smaller libraries, if volume data are not available, the number of titles may be counted.
- Unlimited simultaneous use: units of acquisition or purchase is based on the number of titles acquired. For example, if a library acquires a collection of 100 books with unlimited simultaneous users, then that collection would be counted as 100 "units".

Databases/Electronic Collections

Report the number of electronic collections. An electronic collection is a collection of electronically stored data or unit records (facts, bibliographic data, abstracts, texts, photographs, music, video, etc.) with a common user interface and software for the retrieval of the data. An electronic collection may be organized, curated, and electronically shared by the library, or rights may be provided by a third party vendor. An electronic collection may be funded by the library, or provided through cooperative agreement with other libraries, or through the State Library. Do not include electronic collections that are provided by third parties and freely linked to on the Web.

"Electronic Collections do not have a circulation period and may be retained by the patron. Remote access to the collection may or may not require authentication. Unit records may or may not be included in the library's catalog; the library may or may not select individual titles. Include electronic collections that are available online or are locally hosted in the library.

Note: The data or records are usually collected with a particular intent and relate to a defined type."

Report the number of electronic collections/databases acquired through curation, payment or formal agreement, by source of access. Include electronic serial subscriptions in this section.

Programs and Program Attendance

Library programs are referred to as live (synchronous) program sessions or recorded (asynchronous) program presentations. Multiple format options, as well as expanded age ranges are being tracked.

Report in-person on-site programs and in-person off-site programs separately, as well as live, virtual programs and recorded (asynchronous) programs. See below for definitions of what constitutes a program.

Each program session should only be counted in one age category based on its primary target audience. If there is no agegroup highlighted, then report the session(s) under "General Interest".

Each program session should only be counted once, regardless of the number of formats in which it is presented. For example, a program session that has both in-person and virtual attendance options should be counted as a single program session.

If programs are offered as a series, count each program session in the series as one event. For example, a film series offered once a week for eight weeks should be counted as eight program sessions.

Count recordings (asynchronous) program presentations at the administrative entity level; do not duplicate numbers at each branch. Include recordings of synchronous program sessions that were available for viewing after the session ended. For program presentations that are recordings of live (synchronous) virtual program sessions, exclude live (synchronous) attendance; these should be reported under the appropriate age and format within the live (synchronous) program counts.

Early Childhood Programming-Target Ages Birth to 5 Years

A program session targeted at children ages 0-5 is any planned event for which the primary audience is infants, toddlers, or preschool-age children. Examples of these types of program sessions include, but are not limited to, story hours, every child ready to read programs, musical or sing-along events, and puppet shows. Include program sessions aimed at children ages 0-5 even if adult caregivers also attend. Each program session should only be counted in one age category based on its primary target audience.

Count all children's programs, whether held on- or off-site, that are sponsored or co-sponsored by the library. Do not include children's programs sponsored by other groups that use library facilities. If children's programs are offered as a series, count each program in the series. For example, a story hour offered once a week, 48 weeks a year, should be counted as 48 programs. Exclude library activities for children delivered on a one-to-one basis, rather than to a group.

Attendance is the count of the audience at all program sessions for which the primary audience is children from birth to 5 years old. Please count all attendees of these program sessions regardless of age.

Additional information on reporting specific materials can be found at "[Annual Report webpage](#)", under Tips and Tools, "Program and Program Attendance," and "Program Calculator".

General Interest Programming-Family/All Ages

A general interest program session is any planned event that is appropriate for any age group or multiple age groups. Include all-age, all-library, family, and intergenerational program sessions. Examples of these types of program sessions include, but are not limited to, family game nights, holiday events, storytelling programs, or chess clubs. Include all programs here that do not fit into the other age category elements. Each program session should only be counted in one age category based on its primary target audience; do not include program sessions here that have already been counted in earlier age category elements. Avoid including program sessions that are targeted at more than one non-adult age category (and are not targeted at adults); these should be counted in the child or young adult age category that best represents the target audience.

Report all general interest programs, whether held on- or off-site that are sponsored or co-sponsored by the library. Do not include general interest programs sponsored by other groups that use the library facilities. If general interest programs are offered as a series, count each program in the series. Example: a computer skills class offered once a week for 10 weeks should be counted as 10 programs. Exclude library activities delivered on a one-to one basis, rather than to a group, such as one-to-one resume assistance and services to homebound.

Attendance is the count of the audience at all program sessions that are appropriate for any age group or multiple age groups. Please count all attendees of these program sessions regardless of age.

Next Steps

Congratulations! You've reached the end of the survey! You still have a few very important things to do, though.

At the top, right-hand side of this page are two buttons: 'Verify' and 'Submit/Lock'

FIRST: Click the Verify button. This will run additional edit checks and alert you to anything that still needs an explanation. Examples are shown in the Help link at the top-right side of this webpage on the "Managing Data" tab.

NOTE: Please make any edit check Notes as descriptive as possible. The more complete the explanation you provide us, the less likely it is that we will need to contact you for additional information/explanation.

THEN: Once you have the edit checks completed and the data verified, click on: 'Submit/Lock'

If you click 'Submit/Lock' and you are taken to a white screen with "Required Indicator!" or failed edit check messages, please click the "HERE" link to return to your report. You will need to know the question number, or the section, to which to return.

When the data has been successfully submitted, you will see the locked symbol. That is your assurance that we know you have completed the survey and we can begin our analysis.

Almost done!...

FINALLY: One last thing needs to be completed.

To be considered for accreditation, the library must also complete the "[Accreditation in State Library System Application](#)".

Where to find a blank copy of the Application:

--> Texas LibPAS portal Home page: <https://tx.countingopinions.com/>,

--> Texas State Library Public Libraries Annual Report webpage: <https://www.tsl.texas.gov/ldh/annualreport>.

--> In the printed worksheet. Once the report is locked, the "DRAFT" watermark will no longer be present. Reports can be locked and opened as necessary until April 30.

Once signed, the application should be forwarded to Library Accreditation in the Library Development & Networking Division (LDN) of the Texas State Library. Scan and email the Application to accreditation@tsl.texas.gov. Documents are saved electronically, so no original copy is needed.

NOW you are done! CONGRATULATIONS!!
