### **BACKGROUND:**

As part of our MS4 Stormwater Management Program, and in accordance with the requirements of Minimum Control Measure (MCM) 2: Public Involvement and Participation, the City is required to host at least one public meeting each year to solicit input on the development, implementation, and effectiveness of the program.

This meeting may be conducted as part of an existing public forum—such as a City Council meeting, Board meeting, or other stakeholder meeting—provided that the MS4 Program is included on the agenda and an opportunity for public participation is offered.

Public comments should focus on evaluating the effectiveness of the program's Best Management Practices (BMPs), identifying areas for improvement, and ensuring that the program reflects community needs and expectations.
