

Citizen survey regarding Above Ground Pools:

Current Woodcreek ordinances do not allow for the installation of above-ground pools (only in-ground pools). A request has been made to change the ordinance to allow for above-ground pools. Prior to considering this issue, P&Z would like to provide all citizens of Woodcreek the opportunity to express their opinion and to indicate whether or not they would like above-ground pools permitted in Woodcreek.

It is anticipated that permitting, rules, and regulations governing above-ground pools would be identical to those in place for in-ground pools.

Several considerations have been presented already including:

- Aesthetics: both for neighbors as well as for patrons of the Golf Course
- Water usage / conservation
- Impact to Property value
- Conformity of designs / building materials
- Impervious Cover restrictions
- The right of the homeowner to utilize their property in their best interest
- Priority of this issue relative to others identified in the City's Master Plan

Which best represents your opinion for changing our ordinances to allow for above-ground pools?

Supportive (YES) ___ Neutral (Don't care) ___ Opposed (NO) ___
