

## Notes on Survey

Q6 Although it asks "Which" someone may check more than one. We should either state "Choose One" or allow more than one with a grading scale:

Q7 Change "their" to "the"

Q9 Change "A. At your residence" to "A. At or in your house or yard or both" Perhaps making these two choices: House/Yard

Q10 Add "either inside the residence or damage to the yard." At the end of the existing question

Q12 The grading reference is vague; "Severe Damage to what: House, Yard, driveway?" A better choice of responses, such as "Severe or major Damage to House," "Had to replace Landscaping," etc.

Q20 Remove the word "Sidewalk" as it evokes a specific image of a concrete walkway such as in the suburbs of more urban developments. "Pathway" or "Walkway" is a better term.

Q21 As above, but this question and Q20 seem redundant. We would be better served by adding a question regarding recent traffic calming measures. With

Do you: Approve/Disapprove/Want more/Want less

Q26 Somehow, we should mention costs associated with a Community Pool, which may be the prohibiting factor here as it would most likely require increase in taxes.

Q30 Does the State differentiate ABOVE or BELOW ground?

Q32 A Food Truck or an in-home venture may not be a “Development” but a new “Enterprise.”

Q33 Somehow, we should differentiate between Food Truck courts and a seasonal ice cream truck. Again, an “Enterprise” not a development

Q39 Make it clear, we are referencing “Chickens”

Q40 Please make it plain that we are referring to CURRENT staff or officers, not previous administrations

Q45 Add an option, “Prefer not to respond”

Q47 Change “Other” to “Prefer not to answer”

Q52 This breaks anonymity as to questionnaire. They should merely be told how to send in their information separately from this questionnaire.
