Excellent, and I have the sample in hand for my meeting tonight. Thanks!

Good morning Elizabeth,

I hope you had a great weekend.

Attached, please find the two Estimates we had discussed. The 1st Tab is for the purchase of the Turf only. The turf comes in 15' wide rolls, so you would have to purchase a 15' x 61' roll to complete your project. The 2nd Tab is for a full Install, including the Turf, leveling, adding Decomposed Granite as needed, Nailerboard Securing System, and Weed Barrier.

<<...>>

I had added the tax, which can be deleted if you are Tax exempt.

Your sample was sent yesterday via USPS Priority Mail. You should have it tomorrow.

Thanks again for the opportunity, and please call with any questions.

Hello Elizabeth,

I appreciate the request for quote you sent in regarding your project area, of which you are interested in adding a putting green to your bocce ball court. We are happy to help!

We do have a store located near you in Austin that services your area. Our team has a full showroom with free samples. They can assist with both installation as well as materials. For installation services typically rates range anywhere between \$13-\$16 per square foot all inclusive, (excavated prep work, all materials, the grass itself, labor, delivery etc.). Our team will be following up, however should you want to reach out or stop by the store, their contact information is:

Quote 2:

Artificial Turf Express (San Jose, CA)

Turf with pad and freight delivery: \$5,652.03

*does not include infill sand which is probably \$200-\$300

Had to guess on freight pricing—depends on if you have loading dock, forklift, carpet pole, etc.

The easier we make it, the cheaper it is.

Making use of backyard or community spaces by installing artificial putting green turf can turn a maintenance headache into a fun, relaxing, and game-improving place to play. Putting and chipping on realistic artificial putting green turf is a popular way to exercise and practice essential skills.

Homeowners' and commercial property managers' reviews of our synthetic putting green turf reflect the quality and realistic playing surface this artificial grass provides, especially when installed on a surface that mimics the minor irregularities of your existing surface. Indoors or out, this .7" pile emerald green turf stands up to heavy use and provides years of enjoyment for your family, guests, or tenants.

I apologize, I just remembered in this meeting that you guys asked me to send this to you at the previous meeting.

The 294Euro price is about \$313USD plus \$115 estimated shipping. So good estimate is \$428 shipped.

Hi!

I am on a parks and recreation board so I had to get quotes before my board meeting. We meet later this week and I am presenting the options. Yours is my favorite option so I hope to be ordering soon!

Stuff at a city level like this just takes a long time.

Thanks for checking in!

Hi,

If I purchased these items, that should work and be lower to the ground I think? I took a picture of my cart below.

Could you get me a shipping quote? And what it would be USD if you can, but I can always look that up if it's not something your system gives you.

Hi Elizabeth

Thank you for your message

There are several supports of different heights and with more or less equipment. It is normal that you did not find the support and its counter in a single article, you must select the ones you want and add them individually to your basket.

We remain at your disposal for any further information.
