Fisher TW-8800 Multi-Frequency Pipe & Cable Locator

- Easy to use
- Weather-resistant design
- Audio and visual guidance

Need Help? Call 800-548-1234

The Fisher TW-8800 is an extremely easy-to-use multiple frequency locator that utilizes advanced digital signal processing for precision locating performance. Three active and two passive frequencies meet almost every need in the field. Automatic gain control provides maximum sensitivity, and a combination of audio and visual left/right guidance will direct you to the signal. A large easy-to-read display gives you all the information necessary to do your job quickly and accurately. Select the desired operating mode, set the volume level, check the battery level or activate an LCD backlight using the digital keypad. Measure depth with a push of a button. The TW-8800 transmitter is a powerful 7 watts at 820 Hz, giving you extreme tracing distances. It has only two switches, making transmitter setup quick and simple. The receiver's two passive modes also allow you to locate without using the transmitter.

Includes: receiver, transmitter, batteries, direct-connect cables and grounding rod in a hard carrying case.

Tech Specs

- Frequencies: 820 Hz, 8.2 kHz, 82.175 kHz, passive 50/60 Hz and RF
- Transmitter Power (nominal): 7.0 watt @ 820 Hz and 8.2 kHz; 0.7 watt at 82 kHz
- Operating conditions: -4 to 140°F
- Battery life: 80 hours
- Battery type
 - Transmitter: two 6V lantern batteries (included)
 - Receiver: six C batteries (included)
