

Wylie City Council

AGENDA REPORT

Department:	<u>Purchasing</u>	Account Code:	<u>100-5231-52130;</u> <u>100-5231-52710</u>
Prepared By:	<u>Glenna Hayes</u>		

Subject

Consider, and act upon, the approval of the purchase of Self Contain Breathing Apparatus (SCBA) from Hoyt Breathing Air Products in the estimated amount of \$88,000.00 through an interlocal purchasing agreement with the Collin County Governmental Purchasing Forum/City of Frisco, TX, and authorizing the interim City Manager to execute any necessary documents.

Recommendation

Motion to approve Item as presented.

Discussion

SCBA or Self-Contained Breathing Apparatus is a critical piece of equipment for emergency response. They provide the first responder with clean air while working in smoky, or hazardous environments and are used in are fires, hazardous materials incidents, Carbon Monoxide alarms, Confined Space rescues, and many more. The Hoyt SCBA have top-end technology, and Wylie Fire Rescue has standardized on this brand to keep all firefighters safe (SEMS).

Staff recommends the purchase of Hoyt units for Fire Station No. 4 to outfit the apparatus, for the confined space program, and to continue with the SCBA replacement program (phasing out old and worn-out equipment). The City has been utilizing a City of Frisco contract (through the Collin County Governmental Purchasing Form) with Hoyt Breathing Air Products since March 2019, and annual expenditures for FY 2021-2022 now exceed \$50,000.00. Staff recommends the purchase of SCBA equipment, parts and services from Hoyt Breathing Air Products. Approval of this item will establish an annual contract with renewals.

W2019-82-I / Frisco # 1901-036 SCBA

Financial Summary/Strategic Goals

This item meets the City's Infrastructure Goals.
