
AGENDA REPORT

Meeting Date: May 13, 2026

Item Number: 4

Prepared By: Jason Greiner

Subject

Consider and act upon a naming proposal at the Collin College Wylie Campus Career Technical Education Building.

Recommendation

Motion to approve a naming proposal at the Collin College Wylie Campus Career Technical Education Building in the amount of \$30,000 and authorize the Executive Director to execute any and all necessary documents.

Discussion

Collin College will open a new Career and Technical Education (CTE) Building at the Wylie Campus in the fall of 2027. This will be a dedicated building for technical education programs, including Welding, HVAC, Electronic Engineering Technology, Robotics, and Health Professions. The building will be over 66,000 square feet and provide much-needed space for expanded educational opportunities at the Wylie campus.

The addition of these programs can directly benefit our local primary employers and help build the workforce skills necessary for our local talent pipeline. As such, WEDC has the opportunity to support these initiatives by establishing the “Wylie Economic Development Corporation Scholarship Endowment,” which would provide scholarship support for Wylie Campus students pursuing technical and career-focused education pathways. The cost of this program would be \$30,000.

In recognition of the contribution, a first-floor classroom within the new Wylie Campus CTE Building would also carry the WEDC name for a five-year term, with first right of renewal at the end of that period. The pledge would be paid over a three-year period.

If funded, this recognition would highlight and further establish WEDC’s goal of supporting education that directly benefits existing industry and primary employers, as well as the student population in our community.
