

Historic Review Commission

AGENDA REPORT

Department: Planning

Prepared By: Jasen Haskins, AICP

Item: WS

Subject

Work Session to discuss a proposed new residential construction located at 111 Keefer Road.

Recommendation

Discussion

Discussion

Discuss the changes that the applicant has made to the proposed residential structure at 111 Keefer Road.

The applicant has made changes to the structure and the site since the original proposal was recommended for approval by the HRC but denied by the City Council last year. Some of those changes include; decreasing the size of the home, increasing the size of the front porch, adding appropriate window treatments, and decreasing the 4 size of the garage.

The new proposed elevation is included in the packet for review and discussion.
