Recommendation

Motion to recommend approval.

Discussion

At the November 2022 City Council meeting a work session was held on a potential amendment to the zoning ordinance regarding donation boxes. Staff presented proposed amendments which council generally agreed on and asked staff to finalize the amendments for adoption. Attached are the proposed amendments.

Donation boxes are usually large metal containers and sometimes trailers that are usually placed in existing places of business for the collection of unwanted clothes and other small household items. The sites can be both attended or, more likely, unattended. It is generally the unattended locations that are of concern. An unattended donation box can become a public nuisance when donations overflow into the area around the box or include items that are appropriate for donation, such as used mattresses.

Currently, donation box placement is regulated under the temporary use category of the zoning ordinance and the Health and Sanitation Chapter of the city ordinance. However, neither donation boxes nor the specific conditions for them are in either ordinance, which can make regulation open to interpretation. The proposed amendments codify the regulations and allow for donation boxes as permanent accessory or temporary uses, give requirements for placement and maintenance, and provide for city enforcement and penalties.
