Discussion

OWNER: Brian Scherr

APPLICANT: Brian Scherr

The applicant is requesting a variance to Section 9.2 of Planned Development 2005-44 to allow for side setbacks of 7 feet 3 inches in lieu of ten feet for a 1,641 sq.ft. home addition.

The purpose of the Ordinance restricting side setback requirements is to provide separation from adjacent properties and existing structures.

The applicant believes the variance request has merit for the following reasons:

- A 7 feet 3 inches side setback shall remain to allow for the access and maintenance of remaining open space.
- No windows affecting the adjacent neighbors' privacy are being proposed on the side facing south.
- The Riverchase Homeowners Association has provided a conditional approval letter for the fence.

Public comment forms were mailed to twenty-three (23) property owners within 200 feet of this request, as required by State Law. At the time of posting one comment form was returned in favor and none in opposition of the request.

The Board shall not grant a variance to the development code which:

- (1) Permits a land use not allowed in the zoning district in which the property is located; or
- (2) Is in the public right-of-way or on public property; or
- (3) Alters any definition of the development code; or
- (4) Is other than the minimum variance that will afford relief with the least modification possible to the requirements of the development code; or
- (5) Is based on physical conditions or circumstances of the property so general or recurring in nature as to reasonably make practicable the formulation of a general regulation to be adopted as an amendment to the development code; or
- (6) Is based exclusively on findings of personal or financial hardship.

In order to grant a variance to the development code the Board shall find that all the following have been satisfied:

- (1) That there are unique physical circumstances or conditions of the lot, or other exceptional physical condition particular to the affected property;
- (2) That because of these unique physical circumstances or conditions, the property cannot be reasonably developed or used in compliance with the provisions of the development code;

- (3) That due to such unique physical circumstances or conditions, the strict application of the development code would create a demonstrated hardship;
- (4) That the demonstrable hardship is not self-imposed;
- (5) That the variance if granted will not adversely affect the proposed development or use of adjacent property or neighborhood;
- (6) That the variance, if granted will not change the character of the zoning district in which the property is located;
- (7) That the variance, if granted is in keeping with the intent of the development code; and
- (8) That the variance, if granted, will not adversely affect the health, safety or welfare of the citizens of Wylie.
