

Wylie City Council

AGENDA REPORT

Department: Public Works
Prepared By: Kevin Mack

Account Code: 100-5411-54210

Subject

Consider, and act upon, the approval of a contract with Stripe-A-Zone to restripe Country Club Road in the estimated amount of \$158,152.28 through an Interlocal Agreement with Grand Prairie and authorizing the City Manager to execute any and all necessary documents.

Recommendation

Motion to approve the Item as presented.

Discussion

Public Works (Signals & Signs) is planning to use Stripe-A-Zone to restripe Country Club Road from FM 544 to the Parker Rd. intersection. This project will consist of removing the old painted four-inch skip lines and reflective pavement markers to six-inch skip lines and reflective pavement markers using thermoplastic, lasting significantly longer than paint. They will also restripe the yellow and white edge line.

Thermoplastic is a durable, plastic-based striping material known for its longevity and enhanced reflectivity. It is especially suitable for high-traffic areas, as it contains embedded glass beads that improve visibility at night and during adverse weather conditions. Thermoplastic striping significantly outperforms standard paint in terms of durability and long-term cost-effectiveness.

Staff recommends using Stripe-A-Zone to restripe Country Club Road from FM 544 to the Parker Rd. intersection, in the estimated amount of \$158,152.28, with the Local Agreement Grand Prairie Contract No. 21116. The City is authorized to purchase from a Local Agreement purchasing program with another local government or a local cooperative organization pursuant to Chapter 791 of the Texas Government Code and Section 271 Subchapter F of the Local Government Code; and by doing so, satisfies any State Law requiring local governments to seek competitive bids for items.
