### Discussion

The Parks and Recreation Department (PARD) is seeking approval from the City Council to award contract #W2025-81 for a custom shade structure over the pickleball courts at Community Park.

Recently, a basketball court at Community Park was converted into three pickleball courts. Although the area has limited lighting and shade, the courts are popular, drawing a steady stream of players. The existing courts are regularly crowded, which can restrict access and reduce individual player time. Most players want to avoid the heat and direct sunlight of mid-day, or they work during the day and try to squeeze time in after work, before dark. This further reduces availability. The Parks and Recreation Department is already expanding the courts to six, and the next step is adding shade to help prevent direct sunlight on the courts.

Staff recommends the award of contract #W2025-81 Custom Shade for Pickleball Courts at Community Park to Shade Structures, Inc. dba USA Shade for \$554,800.00 as providing the best value to the City. The City is authorized to purchase from a cooperative purchasing program with another local government or a local cooperative organization under Chapter 791 of the Texas Government Code and Section 271 Subchapter F of the Local Government Code, and by doing so, satisfies any State Law requiring local governments to seek competitive bids for items.
