

**DSA PROJECT STATUS**  
**CITY OF YOUNGSVILLE**  
**December 2025**

1. **Wastewater Treatment Plant (WWTP) Upgrade:** The Notice to Proceed was issued with an effective start date of October 13 with a one-year completion time. The contractor is submitting shop drawings so as to place equipment orders, and is preparing to mobilize in to commence work.
2. **New Water Treatment Plant:** The contract for this work was awarded to NCMC, LLC. Construction is at 98% completion. The startup has gone well thus far. We hope to soon expand the City-produced water service area once we are sure all systems are operating as planned. Remaining work includes getting the generator operational and transferring operation of all wells onto the new treatment plant.
3. **Sugar Mill Pond Pump Station Upgrade:**  
A parallel force main is being planned to serve growth in Sugar Mill Pond. We are preparing plans to obtain gas pipeline letter of no objection and preparing servitude sketches.
4. **Pump Station #5 Upgrade:** This project entails upgrading Pump Station #5 on the Youngsville Highway across from Nunu's to handle sewer flow from new developments in this area. Finishing the design and permitting will be completed while awaiting funding.
